
Title: 12 Let's Get Physical: Move their Bodies, Grow their Brains!

Presenter: Michael Morris

Focus Area: Differentiated Instruction

Other Area:

Audience: Elementary

Abstract: This session provides elementary teachers with developmentally appropriate content that is designed to incorporate movement, physical skill development, and academic content. Why? Because there is extensive research that shows that students learn better when they are moving! Attendees will leave with ample movement activities and ideas that can be implemented right away to engage students with what they are learning, review content, assess student learning, and most importantly get students moving. Come ready to move as you unlock your creativity and increase your students learning potential with this interactive session!

Presentation Addresses the Following Categories of Instructional Strategies that Affect Student Achievement

<u>Yes</u> <i>Identifying similarities and differences</i>	<i>Cooperative learning</i>
